Gateway Arch. Cut out the two sides of the arch. Fold the tabs back against the sides. Glue the two pieces together by fitting the tab on one piece to the gap on the other, like a zipper. Start at one end of the arch and glue a few tabs at a time to fit the two pieces together tightly without wrinkles.

**How to Build Gateway Arch - Wurlington Press**

How to Make a Model of an Arch. Although an arch looks sophisticated, its construction is relatively easy. You just have to use two certain crucial elements: the most lightweight material possible and a keystone. This technique allowed the ancient Romans to construct some very elaborate buildings. You can construct cubes and other geometric shapes...
